| Location: Erode, India

SUMMARY

Driven software engineer with expertise in Java, Spring Boot, React.js, and modern web technologies. Experienced in developing end-to-end applications, integrating RESTful services, and solving real-world problems through scalable software solutions. Author of an IEEE publication in Deep Learning and Natural Language Processing.

EDUCATION

- **B.E - CSE:** Kongu Engineering College, Perundurai (2022 – 2026) CGPA: 7.80
- **Higher Secondary Certificate (HSC):** Bharathi Vidya Bhavan, Erode 82.67% (2022)
- **Secondary School Leaving Certificate (SSLC):** Bharathi Vidya Bhavan, Erode 72.4% (2020)

TECHNICAL SKILLS

- **Programming Languages:** Java, C
- **Frontend:** HTML, CSS, JavaScript, React
- **Backend:** Spring Boot, Express.js, Node.js
- **Databases:** MySQL, MongoDB
- **Tools & Platforms:** Git, Postman, Figma
- **Concepts:** REST API Development, OOP in java

AREA OF INTEREST

- Full Stack Development
- Database Management System

PROJECTS

- **Expense Tracker Application**  (April 2026 – May 2026)
Tech Stack: Spring Boot, React.js, MySQL, REST API, Java, CSS
 - Developed a full-stack expense tracking application with React.js frontend and Spring Boot backend
 - Implemented secure authentication system for user login and protected API access
 - Designed RESTful APIs for managing expenses including CRUD operations, filtering, and analytics
 - Built category-based analytics such as daily/monthly summaries and highest spending category using Java Streams
 - Followed layered architecture (Controller, Service, Repository, DTO) for scalable and maintainable code design
- **Hospital Management System (Face Recognition Attendance)**  (Mar 2025 – May 2025)
Tech Stack: MERN Stack, Flutter, OpenCV
 - Implemented doctor attendance marking via face recognition mobile app
 - Enabled real-time doctor availability checks for patients
 - Integrated role-based authentication system
 - Developed doctor attendance analytics dashboard
 - Designed backend APIs for managing doctor records, attendance logs, and authentication workflows
 - Integrated face recognition processing pipeline using OpenCV for accurate and efficient identity verification
- **Textile Management System**  (Mar 2025 – May 2025)
Tech Stack: MERN Stack, Twilio API, Razorpay, Render, Vercel
 - Developed inventory and order management platform for textile business
 - Integrated Twilio API for SMS order status notifications
 - Implemented product search and filter by color, style, material, and price range
 - Added stock request feature — customers can request unavailable stock and receive SMS alerts when available

RESEARCH PUBLICATION

- **Contextual Cyberbullying Detection Using Emotion Enhanced Bystander Modeling** *IEEE Publication, 2025*

Technologies: Python, NLP, DistilBERT, RoBERTa, BiLSTM, Deep Learning

- Proposed a deep learning framework for contextual cyberbullying detection on social networking platforms.
- Built a deep learning framework for cyberbullying detection using NLP, context-aware classification, and bystander role modeling.
- Developed and evaluated hybrid transformer-based architectures using DistilBERT and BiLSTM.
- Achieved **97.1% Accuracy** and **97.3% F1 Score**, outperforming baseline models.
- Published the research paper in IEEE Xplore, presenting a novel context-aware cyberbullying detection framework using NLP and Deep Learning.

Publication Link: <https://ieeexplore.ieee.org/document/11436665>

INTERNSHIPS

- **Flight Ticket Price Prediction (Machine Learning)** — Generative AI Consortium & SystimaNX IT Solutions Pvt. Ltd

Jul 2024 – Oct 2024 (Remote)

GitHub: github.com/Arvind22cse/ML_INTERNSHIP

Certificate: LinkedIn Certificate

Key Contributions:

- Developed and evaluated **machine learning models** — SVR, XGBoost, and Linear Regression — for flight ticket price prediction
- Performed **data preprocessing, feature engineering, and model evaluation** to improve accuracy
- Built a **Flask API** with HTML templates for user input and real-time prediction display

CERTIFICATIONS

- Wipro: Completed Java Full Stack Certification 

ACHIEVEMENTS

- 3rd place — Intra-college paper presentation on "Health Rate Monitoring Devices"
- 2nd place — ByteBash HackerRank coding competition
- Completed NCC 'A' and 'B' certificates
